Hello everyone. Thought I would start out with a report on the yard clean up day that was scheduled for Saturday April 23rd. Without it (the report) only a handful of members would know how it went. Seems it started earlier during the week. Evidently the neighbor across the street got tired of looking at the "ungroomed" yard and got a crew of his own together and mowed the front and most of the back yard before his lawn mower gave out. Many thanks to the neighbor and his help. (We have invited them to our Mothers Day breakfast). I would also like to thank Bob Heselberg (K7MXE) for bringing his pressure washer in and washing the front sidewalk. Next time you drive by look how nice it looks. Nick (K7MO) brought in his edger and gas weed eater and got things trimmed up and looking real nice. Armand (KA5BBG) finished mowing the grass that was left by the neighbors failing lawn mower. There was also help from Al (K7HW), Randy (AD7FF), Rich (N7ANF), Dawn (KC7VZM), Rich (KR7W), and myself (KK7QS). Rich (N7ANF) let us load all the yard waste into the back of his truck for disposal at the dump. Thanks again to those who took the time to help.

Later that day at the clubhouse there was an open house potluck to celebrate the completion of the kitchen rebuild project. Which, by the way, turned out very nice. At about 6:00 PM we started to gather for our dinner social. Jill (K7JIL) had cooked a stuffed turkey in the oven at the clubhouse. Side dishes and desserts started to arrive. It was a good time with good food, and plenty of good friends. There were about 25 or 30 guests. If you missed this one we hope you can make it to the "Mothers Day Breakfast". We will have the club's annual Mothers day breakfast at the clubhouse on Sunday May 15th. We chose the Sunday after so our event wouldn't interfere with family things on the actual holiday. Please try to make it. This would be a good time to see our new kitchen and the rest of the clubhouse. Keep checking the web page and listening to the club nets to keep up with club activities.

Work schedules make it necessary to appoint replacements. The recent shift change for Ed (KC7OKS) and the work schedule for Ray (AC7KQ) has left open the secretary and a board position. I have appointed Al (K7HW) to serve the remaining term for secretary, and Lynn (K7OKS) to finish Ray's term on the board. Please help me welcome them to the board of di-

Radio Club of Tacoma Meeting Minutes

RCT Board Meeting

April 6, 2005

There was not enough board members present to form a quorum, but a general discussion was conducted. The following minutes were submitted by Armand KA5BBG.

Starting time: 7:35 p.m.

No full board present.

No copy of last meeting .

We received some mail.

Treasurers report discussed, no copies given out.

The heating bill was high.

The combination on the lock has been changed .

It was reported by Nick that the gun club has agreed to let us use it for field day. 7-A, 80CW, 75phone, 90 phone, 20CW, and 15 CWSB, PSK-31, 2M fm, 6M SB & CW, alt power generator—AC7QN's bicycle generator. There is a disk of pictures from last years field day for sale, to raise funds for this years event. Only paid up operators can work the radios.

Need to get FD tee shirts for officials

The power system needs more wire.

There is a tennis ball cannon on order.

The Fair Booth operation has been turned over to Pat KD7TRC

The handicap ramp is being worked on.

Need someone to help in the Sec. spot.

Last years budget 2005 there were 174 paying members. It takes \$622 per month to run the club. Membership dues are not covering the expenses .We need fund raisers to help cover the costs.

Boyscouts are needing help with their Washjam event.

RCT General membership meeting
April 13, 2003

The meeting was called to order at 7:30 PM by President Mick KK7QS.

President Mick KK7QS led the membership in the Pledge of Allegiance to the flag and conducted the introductions of all members and guest. There were 51 members and guest in attendance, the sign in roster is attached.

The meeting program was an informative discussion of preparations for contesting conducted by Gary WG7X. The discussion covered station preparation, log keeping, equipment requirements and how to make contacts. There were numerous color slide illustrating typical contest stations. The use of the Club's new digital projector contributed to an excellent and informative presentation.

Rich KR7W discussed upcoming Field Day plans and preparations. Equipment requirements, need for station coordinators for each band, manpower needed for setup and teardown were discussed. Future Field Day meetings will be announced later.

Our Secretary Ed KC7OKS work schedule has changed to evenings and being unable to attend meetings has asked the president to find a replacement. President Mick KK7QS appointed Al K7HW as Secretary. Ray AC7KQ with similar a work schedule has asked to be replaced and Lynn K7OKS was named as his replacement.

Rich N7ANF reminded all of the upcoming Mothers Day Breakfast at the club house on Saturday May 15th, 2005. All are welcome and encouraged to attend.

Door prize, ARRL Repeater Directory, was won by Gary K7UPG. John AC7WW won the raffle.

A general discussion for the good of the order took place.

The meeting ended at 8:55 PM

Respectfully submitted,

CECIL A. BURLESON K7HW
Secretary

AARL RCT VE Team Report

by John Clarke AC7WW

Nine Volunteer Examiners gathered at the Clubhouse of the Radio Club of Tacoma on Tuesday evening April 12. Of the four candidates attending the session, one passed the Technician Class license, and one upgraded to General Class. We also had one paper upgrade to General Class.

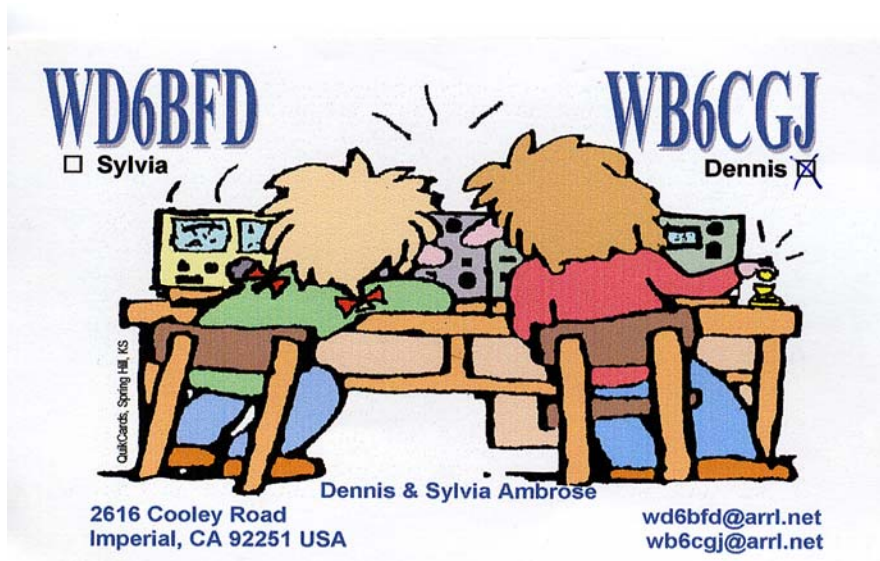

session run smoothly. Your help is appreciated.

73 John AC7WW
John Clarke
clarken@ix.netcom.com

Thanks to the VE Team members who helped make the testing

QSL CARD OF THE MONTH

Submitted by Rich K7RW

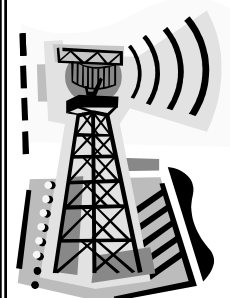

I had a very nice CW QSO with Dennis on 3/29/2005 on 40 meter CW. I like to send QSLs to hams that I have had an enjoyable QSO with. I especially like this QSL card that Dennis sent back...because of it's design that shows that Dennis and his YL (wife, Sylvia) are both hams and share the radio equipment as well as their QSLs.

RCT VE TESTING EVERY SECOND TUESDAY OF THE MONTH AT THE CLUBHOUSE AT 7 P.M.

Anyone wanting to take any element of the amateur radio tests is welcome - *no reservations needed.*

Elmer Board

Do you need help with some area in ham radio? Here is a place to start... First is the listing of areas of support, followed by a list of members' areas of interest.

1. Technical questions, Classes
2. Help with Code
3. License Examinations
4. Antenna and Station planning
5. Antenna and Tower erection
6. Buying new or used equipment
7. Equipment repair
8. Understanding and operating your equipment
9. DX and Contests
10. Club and ARRL activities
11. Using test equipment
12. IRLP

Name/Call Sign /Phone Number/ Help with topic

Frank, N7UO	253-752-8520 :	2, 3
Angela, KC7EQ	253-584-2228:	2
John, AC7LK	253-984-6709:	3, 4, 8, 10, 12
Mick, KK7QS	253-891-6950 :	12

If you are willing to share your time and knowledge with "newbees" and others, let us know and get on the Elmer Board!

RADIO CLUB of TACOMA

FIELD DAY 2005

Radio Club of Tacoma's 2005 Field Day is Saturday, **June 25th**. Set up is Friday, June 25. FD tear down is Sunday, June 26. FD Chairperson Nick and Deputy Rich have had one planning meeting and some changes from last year have been decided upon. With these changes... we think that this years FD will be the best ever.

This year the station line up will be as follows to allow RCT to operate in the 7A classification. As of this writing... the following people have committed to be "band captains" for the stations shown.

80 Meter CW

75 Meter Phone

40 Meter CW Rich KR7W, Worth W7WG, Alfred K7PUC, Morel W6LIX

40 Meter Phone Gary WG7X

20 Meter CW Rick W7LKG

20 Meter Phone

15 and 10 Meter CW and Phone

VHF and Satellite Frank KB3NV

GOTA

In addition to the above (7A) stations... we will have:

GOTA (Get On the Air) station which will be equipped with PSK-31, Slow Scan TV, and Phone. The GOTA station will allow "newbie" hams or visitors to make actual radio contacts with other Field Day stations. We hope that having PSK-31 at the GOTA will be attractive to the computer literate visitor. The GOTA station will also have a 2 Meter FM station for the newly licensed Technician.

VHF Station. The VHF Station does not count towards our total transmitter count. This station can make unlimited contacts on 6 Meters and up. Last year a great number of 6 meter contacts were made. We also hope that the VHF station will make a satellite contact for the additional 100 points.

Food Station Rich N7ANF and Michael KB7ZDR

Emergency Generators Chuck AC7QN

Power Distribution

Alternate Powered QSO Chuck AC7QN's bicycle generator

The Field Day committee is attempting to raise money to buy some fresh salmon (in addition to the 'dogs 'n burgers) for the Saturday BBQ Dinner.... By selling the 2004 FD Slide Show- that a lot of folks saw at a February club meeting. The disk has about 170 slides of last year's FD and runs for 20 minutes. The disk is self starting- all you have to do is put it in your PC's CD drive... and it should automatically start and play. The disks are \$9.99 (a ten spot) and an extra buck to have it mailed to you. See Rich for a disk.... Or check the club's website for more details.

This year W7DK can earn an additional 20 bonus points (maximum 100) for each participant 18 years old or under that makes a QSO.

(continued on page 8)

(Field Day 2005 continued from page 7) We need folks to volunteer shelters, i.e. trailers, motor homes, and/or tents to set stations up inside.

Band captains will be contacting operators to set up operating schedules. If you would like to operate a particular station and/or mode... Don't be shy- contact the band captain of the station that interests you. You must be a club member to operate a station.

If there is some task that you are interested in but think that you don't have the skills... please volunteer and you will be paired up with someone to show you how. Everyone who comes out to help always has fun.

Rich KR7W will be giving logging software demonstrations at the clubhouse on various Saturdays between now and FD.

A map to the FD site is on the RCT website, www.w7dk.org. Also, a map will be published in the June Logger's Bark newsletter. The station assignments are also shown on the website and will be updated immediately as status changes.

So, please mark your calendars for June 25th to attend the potluck dinner at 6:00 PM.

Rich KR7W, April 21, 2005

What Do you Do with A Rubber Ducky? By Rich N7ANF

Well here it's getting close to May and Mothers Day Breakfast and I'm running real late, as in dead line. Don't forget Mothers Day Sunday the 15th of May from 8 to 11AM or so, at the RCT Club House at 1249 So Washington St. We will have ham, Krusteze pancakes, eggs any style, *as long as they're scrambled*, wonderful RCT coffee, teas, milk, OJ. And any fruit you care to bring, that could go on or in the pancakes. Our own Jim Wilcox offered to donate the eggs and dairy that we would need. (Thanks Jim) So try to come and remember its Sunday the 15th, the week AFTER the conventional Mom's Day on the 8th of May. It will be free with donations accepted as the last few years.

April has been a real whirlwind for the family. Nothing real big, just alotta stuff. You know, if I was back to work again I might escape it all. I think I've figured it out. That's why God gave guys wives, somebody to stay home and face all that confusion and stress. I probably bring on most of it my self though. I'm so well organized (NOT). If you ever saw my shack, well you'd understand. (Yes Worth, probably worse than my garage.) Here I sit getting over some bad lung and sinus crud, not too well tuned up. Been going on for about two months now. I didn't mean for this to sound like a rambling suicide note though.

On the lighter side, I'm still feeding my "temporary dipole" through my vinyl window. 120 feet, center

fed, low to the ground with home built 450 ohm ladder line with the same aluminum wire as the antenna. The line, all in the house, has cardboard separators at 1 1/2 inches. Now that's a 9-1 ratio, (going out on transmit that's 1-9) which the tuner takes care of just fine. Some day I'll have my resonant 80, 40, 30 meter antenna back up and the tuner will go away. Meanwhile the tuner changes the 50 ohms from the radio to about 112.5 ohms, runs it thru a 4-1 balun, up to 450 ohms. And depending on the band, and/or the length of ladder line this could vary a lot.

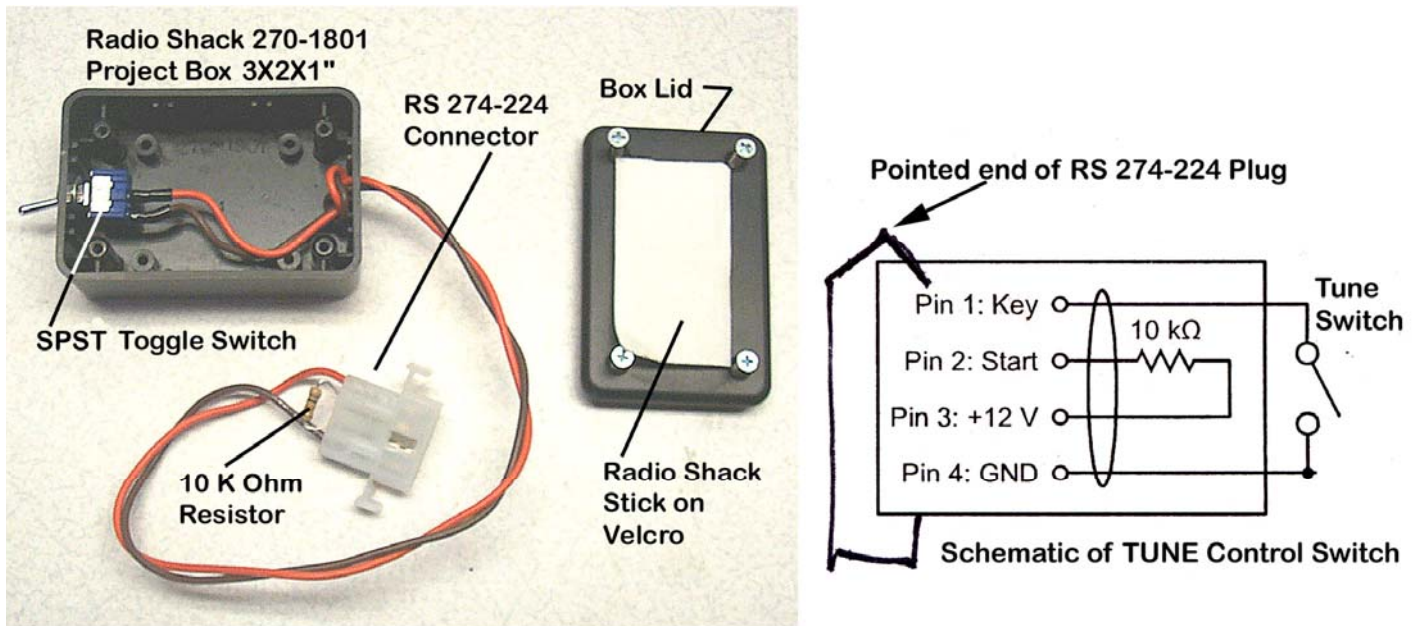

I got to thinking; why not just make a 9-1 balun to run directly from my Kenwood 520, a radio with tunable output through the 9 to 1, step up, balun and any changes take place in the pi output circuit of the radio. Looks good in print anyhow. So I found an old try-filer toroid, a big RF one in my junk box with 3-12 turn windings. I think I

could hook it up as a 1-1, 4-1 or a 9-1. I could do it W7WG style, with clip leads, or in a box with a big switch. I dream a lot too. So stay tuned kiddies, tune in next month to find out.

So see you there, 73 & 88,
Rich....N7ANF.....awful.....nice.....food.

Project of the Month

by Rich KR7W

ICOM 706, 718, 746, 756 TUNE UP CONTROL

A lot of hams have the popular Icom 706 amateur radio transceiver to use in their home station or mobile with the W7EC screwdriver antenna. Someone asked me how to go about tuning up this radio with a manual antenna tuner. How do you get the radio to output a constant carrier to adjust the tuner for lowest SWR?

This particular radio (and the IC-718, IC-746, IC-756) is made to work with Icom's AH-4 automatic antenna tuner. The AH-4 sits outside your shack or in the trunk of your car and is connected to the radio via a 4 conductor control cable. The radio knows when the AH-4 is connected via the control cable. To tune this radio and auto-tuner combination, the operator simply pushes the TUNE button on the front panel of the radio. This action tells the tuner to start up. The tuner then signals the radio that it is ready to receive RF carrier. The radio then changes to the CW mode and lowers the output power to 10 watts. After the AH-4 is finished tuning, then it tells the 706 to stop sending RF. The radio then returns to the previous settings (most likely SSB mode at 100 watts).

If you do not have an AH-4, and want to use a manual antenna tuner, screwdriver antenna, or other manual tuning device.... You can fake out your 706 with this simple control circuit. All parts are from Radio Shack

and are in stock at the Tacoma Mall store.

My 706 TUNE control was built in Radio Shack's smallest project box (3x2x1"). Mine uses a toggle switch, however a push button switch (or dead man's switch) can be substituted. *Note: You can not walk away and leave the radio in the tune mode with a push button switch.* My 706 TUNE control will be Velcro-ed to the bottom of the radio with stick on Velcro material. The 10 K OHM resistor is mounted in the rear part of the plug-in connector.

How works it. I preset my manual antenna tuner to known values for the frequency I am operating on. I operate the TUNE switch. The radio outputs the 10 watts of CW carrier. I make any fine tuner adjustments. Release the TUNE switch. I am done. **No more** messing with setting the Mode to AM, resetting the output power to a lower value, holding the mic PTT switch closed while I am adjusting the tuner controls.

Want to build it? Need help? See me. Thanks for reading this far, Joe. 72r5 Rich.

Pacific Northwest Hamfests

From the website of Lynne Burlingame N7CFO

May 8, 2005. Maple Ridge Amateur Radio Club Ham, Computer and Electronics Swap Meet. Maple Ridge, BC. <http://www.qsl.net/ve7rmr/index5.html>

May 14, 2005. Stanwood Camano Amateur Radio Club (SCARC) Hamfest, Stanwood Middle School, Stanwood, WA. Contact Vic, N7KRE (360)387-7005. huppert@whidbey.net. [Flyer in PDF](#). (36K)

May 21, 2005. The second annual 145.29 Chili Cookout and Swap Meet. Albany, Oregon, 22 minutes south of Salem, close to I-5. The cost is \$5 and \$10 for families. 12 noon to closing near 5 PM. For information, contact Dan, WA7ABU, wa7abu@arrl.net. <http://www.qsl.net/wa7abu/Chili.html>.

June 3, 4, 5 2005. Apple City Radio Club Hamfest, Dryden Gun club. Dryden, WA. Free RV and tent sites, Saturday Breakfast, Saturday night potluck dinner. This is a fun one - it is informal, and you will find a lot of nice folks camped out in tents and RV's around the clubhouse. It is relaxed and low key and a good chance to see your friends. Leavenworth is just down the road. When I go I usually make a loop out of it, going out over Snoqualmie Pass and returning over Stevens Pass, so there is a lot of scenery to see. There are a lot of kids there, and the club feeds are great. To get there go to the intersection of Hiway 2 and Hiway 97 and look for the signs. VE testing. Talk in 146.68, tone 156.7. [Flyer in PDF](#). (55K). Contact Judy, ka7zna@msn.com for information. <http://www.qsl.net/w7td/>.

June 17-19, 2005. Sea-Pac Hamfest. Seaside Convention Center, Seaside, Oregon. This is the ARRL Northwest Division convention, and it is a popular one! Seaside is a popular resort area, and the family and kids will enjoy touring the area while the ham in the family attends the festivities. Exhibitors Call: Al Berg, W7SIC (503)816-7098. Registration info call Will Sheffield, N7THL. (503)642-7314. Email n7thl@juno.com. www.seapac.org/.

July 15-17, 2005. Glacier Waterton International Peace Park Hamfest. The Waterton-Glacier International Peace Park Hamfest will once again welcome amateurs from the U.S. and Canada at the Glacier Meadows (Formerly the Three Forks) Campground near Essex, Montana. The Hamfest is always held on the third full weekend in July. Further Information about past hamfairs can be found at: <http://www.gwhamfest.org/>

July 30, 2005. Chehalis Valley Amateur Radio Society Hamfest. Lewis County Fair Grounds, Chehalis, WA. There will be in an outdoor covered area with tables available and tailgate space for those that want to provide their own. For additional details, contact John Ellingson, K7OSK, k7osk@boatanchor.com. [Flyer in](#)

Mini-Swap Meet at the Clubhouse

Last Saturday of each month Mini Swap Meet at the Clubhouse ... 10 a.m. to 2 p.m.... There will be food (hot dogs, etc.) ... Bring in your items you want to swap or sell or stop by to see what others bring.

Repeater Critters

Number 36 in the Series:

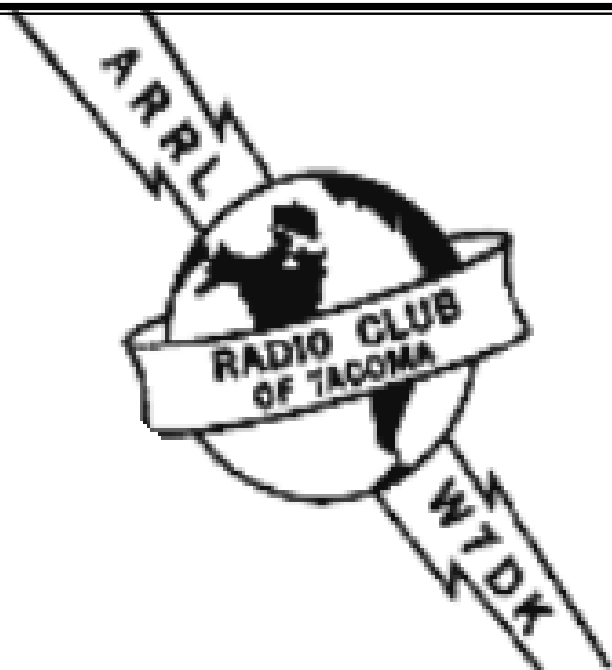

Simplexicus Avoidicus

The Simplexicus Avoidicus, is that most public of critters, for he hates simplex and is most vocal about his distaste for it.

Mobile Simplexicus' can be heard on repeaters everywhere talking merrily to someone who is very close to him, and in fact may even be close physically... In fact, some times Simplexicus can be heard to ask if the other person can see him/her, which indicates that they are *VERY* close to one another. But still Simplexicus Avoidicus remains on the repeater, commenting merrily to the other person on the weather in their vicinity, and did you see that lazy driver cut me off?

A home bound Simplexicus is a very lazy critter, refusing to explore the wide open, scary spaces of simplex; preferring instead to cluster with others of his ilk on the old familiar repeater, and it's comforting, cheery "beep" reminding him that its his turn to talk.

Be on the lookout for this species of repeater critter! Remember to fill out your spotter's log!

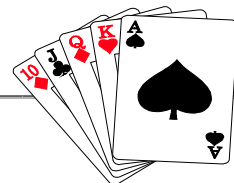

PINOCHLE & POTLUCK

See you at the clubhouse
